[1] Not all OC water agencies are providing the \$9/active station. Where the agency does not fund this, home owners in their service territory only receive MET's \$80 per smart timer.

[2] Non-Urban Water Management Plan (UWMP) agencies are not eligible for DWR grant funds. These agencies are: Brea, Fullerton, Golden State Water Company, Orange, and Seal Beach. They would only receive the MET incentive.

[3] Rebate amount available only in IRWD service territory

[4] Eligibility limited to customers required to wash down surfaces to comply with health and safety regulations
