NEW SINGLE-FAMILY, MAJOR MODIFICATION, AND ACCESSORY DWELLING UNIT Submittal Checklist

All new single-family residences, major modifications to existing single-family residences, and accessory dwelling units require additional review and approval prior to entering Building Division Plan Check. Such review will not be “over-the-counter” but, rather, submitted to the Planning Counter. The following are required to be submitted to the Planning Counter for review:

- A. Completed **Residential General Data and Affidavit** form signed by the property owner.
- B. Copy of a **six-month or newer Title Report** of the property which must include an Assessor’s Parcel Map, Grant Deed, and Legal Description for the property. The Grant Deed should indicate the owner of record signing the General Data and Affidavit form.
- C. **Three (3) sets of fully dimensioned legible plans** (minimum size of 18" by 24") to include:
 - 1. **Site plan** detailing ALL existing and proposed structures, property lines, walkways, driveways, landscape setbacks, mature trees, walls/fences, air conditioning units, and existing or proposed easements (minimum scale: 1 inch = 20 feet).
 - 2. **Floor plan** detailing new and existing rooms, walls, and windows. Label use of rooms and location of water heater, washer, and dryer (minimum scale: ¼ inch = 1 foot).
 - 3. **Building elevations** detailing architectural elements, materials, and height of structure.
 - 4. **Roof plan** detailing roof pitch/slope and eave overhang.
 - 5. **Window schedule** detailing existing and proposed window size, method of operation, and materials.
 - 6. **Legend** (on site plan) detailing square footage of lot size, square feet of existing structures and new structures by floor, percentage of lot coverage (all square footage under roof eaves), existing General Plan designation and zoning, project address, and applicant’s name and phone number.
- D. **Photographs** of the site and adjacent properties.
- E. **Material or display board** for the project no larger than 11" x 17" illustrating the proposed exterior materials and color samples (optional for accessory dwelling unit applications).
- F. **Submittal fee.**

After the Planning Division has completed the review of your development proposal and prior to submittal into Building plan check:

- New Single-Family Residence projects** are to submit three (3) copies of landscape plans (and Review fee) per Preparation Guidelines for Landscape Plans.
- Accessory Dwelling Unit projects** are to file a recorded covenant with the Planning Manager (in a form approved by the City Attorney) affirming and consenting that either the primary dwelling unit or the second dwelling unit shall be owner-occupied.

PREPARATION GUIDELINES FOR SINGLE-FAMILY/ DUPLEX RESIDENCE LANDSCAPE PLANS

All landscape plans should be submitted as working drawings including the items listed in this memo. Landscape plans will be returned for corrections if they lack these requirements.

- A.** SUBMIT THREE COMPLETE SETS OF CONSTRUCTION DRAWINGS TO THE LANDSCAPE DEVELOPMENT ASSOCIATE FOR PLAN CHECK. Plan check fee is payable with submission of plans. Indicate on plans the person to contact (name and phone number) once plans are approved. The distribution of approved landscape plans shall be as follows:
1. Copy to Planning Division for field inspection and retention in Planning Division files.
 2. Remaining copy/copies to designated person submitting the plans.
- B.** All plans shall include pertinent details (refer to the landscape plan example on the reverse of this sheet).
1. Title block with the name and address of the project, including the name, address, and phone number of the applicant or representative of the applicant.
 2. Scale.
 3. North arrow.
 4. Named streets and any alleys.
 5. Plant legend, including common and botanical names plus container sizes (or coded symbols).
 - a. One 24-inch box canopy tree (all trees should be double-staked).
 - b. Six 5-gallon shrubs.
 - c. Ten 1-gallon shrubs.
 - d. Flowering vines (5-gallon size) every 20 feet along project perimeter.
 - Vines shall be secured to decorative masonry wall or wood fence material
 - Espaliered shrubs, fruit trees, or other ornamental trees may be substituted for flowering vines.
 - e. Any hydroseeded grass must be established by the time of field inspection.
 - f. Irrigation legend, including irrigation system with schematic design and legend. Pop-up sprinklers shall be provided for all yards.
 6. Hardscape (driveways, sidewalks, swales, etc.).
 7. Appurtenances (electric and gas meters, HVAC units, etc., as applicable to the project).
 8. Height and building material for any existing or proposed fences.
 9. Attached note indicating materials used for structures and the colors of these materials – this information may require a submittal sheet from the project architect.
 10. Any slopes plus slope grade. Slopes that exceed a 4:1 grade must be planted in groundcover or erosion control type shrubs.
 11. Avoid planting any trees over water or sewer lines.

Landscape Plan (example)

(Refer to reverse side for labeled items)

Plant Legend B5

- 1 – 24" box Canopy Tree (specify species)

NEW SINGLE-FAMILY DWELLING REQUIREMENT SHEET

All new single family dwellings, prior to issuance of Building Permit Release (by the Planning and Building Agency) are required to receive approval from the Public Works Agency (PWA). Below is a list of the Public Works Agency's requirements. PWA staff will determine if Street Improvement Plans are required. For additional information, visit the PWA counter.

Driveway Approach

- Install proposed driveway approach, per City Standards and Planning requirements. Driveway approach must be located a minimum of 10' away from any utility facility, such as power poles, streetlights, catch basins, etc.
- Replace sidewalk, curb and gutter, and landscaped parkway for any abandoned driveway(s). See parkway requirements below.

Fees

- See the Public Works Counter for applicable fees.

Grading/Surface Drainage

- Depict on plans the drainage pattern of the site.
- Submit a preliminary evaluation of surface drainage showing the direction and means of flow to the adjacent streets and/or on/off site storm drain facilities.

Parkway Requirements

- Install a new drought tolerant landscaped parkway. See current requirements on the internet at: <http://www.santa-ana.org/sawatersmart>; then click on "Parkway Improvement Guidelines".

Pavement Requirements

- The City's policy requires a five year moratorium for all newly paved streets. Any installation of utility services or improvements involving cutting the asphalt pavement on a moratorium street shall comply with all the street moratorium requirements. To access the list go to: <http://santa-ana.org/pwa/EngineeringServices.asp>; then click on "Street Moratorium List".

Sewer Lateral

- Install new 4" sewer lateral, per City Standards. The reuse of existing sewer laterals for demolished/rebuilt homes is contingent to submittal of sewer video to the City's Water Resources Division for review and approval.

Sidewalk

- Replace any up-lifted sidewalk along the entire property frontage.

Water Service Lateral and/or Meter Box

- Install new 1" water service and 1" combination water/fire meters, per City Standards. Use of combination meters on existing ¾" water services without written approval of Orange County Fire Authority is not allowed. The reuse of any size existing water service that has been abandoned for more than 10 years is not allowed, and construction of a new water service will be required.

PWA Counter Hours:

Monday, Tuesday, Thursday, and every other Friday: 8:00 a.m. – 4:00 p.m.

Wednesday: 10:30 a.m. – 4:00 p.m.
