

I was born and raised in Santa Ana. I graduated from Saddleback High School then went on to get my B.S in Electrical Engineering from Cal State Fullerton. I have worked for a big tech company for over 11 years where I now work as a Hardware Development Engineer. I bought my first house by Memorial Park. I then sold it and bought my next house in a beautiful neighborhood in the northern part of Santa Ana. I have a wife and two beautiful little girls.

So why did I decide to run for city council? Because as a husband, father, and homeowner, there are issues in this city that concern me still such as our high crime and the increasing homeless problem.

It's time for non-politicians to take charge of this city once and for all! As someone who is rejecting endorsements and big financial backing, I believe that elected officials should only be answering to Santa Ana residents. My father taught me to dream big and work hard to achieve it. What is my dream for Santa Ana? I want Santa Ana families to enjoy the same quality of life that south county families do.
