

LAURA PEREZ

PROPERTY MANAGEMENT COODINATOR

My name is Laura Perez, and I am running for Santa Ana's city council Ward 5 to bring a residents' perspective of the struggles our working class community faces on a daily basis. My priorities are to enhance the quality of life that our residents deserve by advocating for safe green spaces, affordable housing, and investing in our youth.

Growing up in the outskirts of Santa Ana, I attended public schools in Garden Grove Unified School District and participated in recreational programs that both cities had to offer. Our local parks should be a safe haven for our children, and making sure every resident has access to open green spaces will be at the top of my list. True affordable housing that matches residents' wages along with cost of living expenses should be easily accessible to current and future residents. Investment in youth programs should encompass job and career opportunities within our city to promote local hiring incentives amongst our small businesses.

As a lifelong resident of Santa Ana, my sole interest is to be an advocate for our residents with transparency and dignity. I will ask that my community and neighbors hold me accountable as their representative should I be elected.
