

Nelida “Nelly” Mendoza
Governing Board Member, Rancho Santiago Community College District

Much is at stake: Crime, homelessness, education and infectious diseases must be addressed so our neighborhoods are safe and our children have a promising future.

I have been a Santa Ana homeowner for over 40 years. I believe in keeping families safe from crime. I have local law enforcement support. I serve on the Sheriff’s Latino Advisory Committee and previously on the District Safety Committee. Together we will make changes to bring a higher quality of life.

As a teacher, educator, and Trustee I expanded the nursing program at Santa Ana College to prepare students to earn competitive salaries. I supported the Bachelor’s Degree program in Occupational Therapy at the community college level, approved a mobile system for mass alert communication, and maintained a balanced budget. As Vice President of Rancho Santiago Community College District Board, I represent various neighborhoods.

Once elected, I will:

- Collaborate with our police officers for safer neighborhoods.
- Alleviate homelessness burden on Santa Ana.
- Advocate for street maintenance, parks, and business growth.
- Prepare the Orange County Healthcare Agency to protect us from the coronavirus.

Join my supporters:

- Lou Correa, United States House of Representatives, 69th District
- Loretta Sanchez, Congresswoman, United States House of Representatives (ret.)
- Tom Daly, California State Assemblyman, 69th District

I protected our country as member of United States military. I support improving our education system. It is an honor to continue service to you on the Santa Ana City Council.
